DEUTSCHE
WINDGUARD

JOIN THE ENERGY TRANSITION!

You are full of drive, innovative spirit and willing to break new ground?

Then become part of Deutsche WindGuard and join us in shaping the future energy supply!

Founded in 2000, Deutsche WindGuard is today one of the world's most experienced and comprehensive service providers in the wind energy industry – onshore and offshore.

We are committed to providing unbiased and manufacturer-independent consulting and comprehensive scientific, technical, and operational services.

Our core business activities include:

- Consulting
- Site Assessments
- Measurements
- Inspections & Technical Management
- Wind Tunnel Centre
- Offshore
- Certification

With the headquarters in Varel, Germany, and subsidiaries in Germany, the United States, China and India, Deutsche WindGuard employs around 200 experienced experts.

The WindGuard universe with more than 50 services and a holistic network with a scientific core offers you access to a broad spectrum of expertise, know-how and experience.

WE OFFER YOU:

- exciting job offers in an innovative and interesting work environment
- flexible work schedules and the option of mobile working
- modern technical equipment
- advanced training opportunities
- participation in the Hansefit programme
- use of Corporate Benefits – an app with many great discounts
- company bike leasing
- subsidy for the company pension scheme
- especially for students: internships, part-time jobs, bachelor's and master's theses

ARE YOU CURIOUS NOW?
